Contract for bread Fair Baskets

May - June 2013

Enactus – Fair Baskets :

Fair Baskets is a project of Enactus (association of social entrepreneurship) which aims at helping local producers in the field of organic agriculture to obtain stable and decent income through direct selling.

AMAP (Association for the Preservation of Peasant Agriculture) :

The idea is to create a direct link between producers and consumers who commit themselves to buy their products at a fair price and to pay in advance.

Distributions :

The distribution will take place at Audencia – 8 route de la Jonelière 44312 Nantes Cedex 3, next to the parking, in front of the gymnasium **between 1:15pm and 1:45pm**, the following Tuesdays : 7th May, 14th May, 21st May, 28th May and 4th June 2013.

Initiative :

The bread is made in Thouaré-sur-Loire (44170) with organic flour made from the corn of Brittany and Pays de Loire. The salt comes from the salt marshes of Guérande. The seeds come from the grocery store Fleuron Bio Sainte Luce. The bread is made by hand, without any kneading machine and the raising properties of the dough lasts at least 4 hours. The dough contains flour, salt and water, no additives, yeast, preservatives or whitener or other chemicals. It is 100% natural. Weather, especially humidity and heat, has an influence on the rising of the dough. Cooking is carried out in a wood oven with indirect heat. Thanks to this specific bread process making, our bread can be kept for several days. Our producer has her products approved "Nature and Progress" since June 2011, which certifies her organic bread process making. Its charter includes other settings more generally, environmental, socio-economic and human development such as proximity exchange.

The producer, Christine Bichon, commits herself to:

- Deliver every week or bi-monthly at the right time the exact number of bread
- Provide organically-produced breads
- Be transparent about the prices and the work methods

The member commits himself to:

- Come and take his bread every week or bi-monthly at the right time. Should he not be there, he asks someone to take it for him
- If he is absent or late and didn't inform about it, he understands that my bread is lost.

Breads not taken won't be reimbursed. At 1:45pm, the bread will be "lost" by the member and it can be taken by anyone who wants it. It will allow no-members to discover the AMAP.

This contract expires at the end of the last distribution (16th April 2013).
