

# Contract for vegetables Fair Baskets

**enactus**

May - June 2013

## Enactus – Fair Baskets :

Fair Baskets is a project of Enactus (association of social entrepreneurship) which aims at helping local producers in the field of organic agriculture to obtain stable and decent income through direct selling.

## AMAP (Association for the Preservation of Peasant Agriculture) :

The idea is to create a direct link between producers and consumers who commit themselves to buy their products at a fair price and to pay in advance.

## Distributions :

The distribution will take place at Audencia – 8 route de la Jonelière 44312 Nantes Cedex 3, next to the parking, in front of the gymnasium **between 1:15pm and 1:45pm**, the following Tuesdays : 7<sup>th</sup> May, 14<sup>th</sup> May, 21<sup>st</sup> May, 28<sup>th</sup> May and 4<sup>th</sup> June 2013.

## Initiative:

The producer proposes baskets of various, seasonal, locally produced (at Bourgneuf-en-Retz) and organic vegetables weekly. The price of a basket is 4, 8, 12 or 16€ (depending on the size of the baskets which are respectively for one person, a couple, a family which doesn't eat a lot of vegetables or which eats a lot of vegetables).

The **producer**, Benjamin Friou, commits himself to :

- Deliver every week at the right time the exact number of baskets
- Provide organically- produced vegetables
- Give news about the yield
- Be transparent about the prices and the work methods

The **subscriber** commits himself to come and take his basket at the right time. Should he not be there, he asks someone to take it for him. If he is absent or late and didn't inform about it, he understands that his basket is lost. **Baskets not taken won't be paid back. At 1:45pm, the bread will be "lost" by the member and it can be taken by anyone who wants it.** It will allow no-members to discover the AMAP.

Moreover, the subscriber commits himself to support the producer in his initiative. He understands that bad weather, pest animals and diseases are part of agriculture and can harm the production. Otherwise, he knows good conditions can increase the production. Thus, he accepts to share risks and profits with the producer, knowing that he will receive his part of the season's production.

This contract expires at the end of the last distribution (16<sup>th</sup> April 2013).

## Member :

NAME :	First name :	Class :
Address :
