EXPERIENCE

PRODUCTION OPERATOR

Bakkavor Foods Ltd

Bo'ness, Scotland

Since April 2018 - current

October 2016 - September 2017

My role is to prepare cooked vegetables before they are packaged for sale.

Other tasks include:

- Check and use equipment appropriate for the kind of vegetables.
- Check the quality of the vegetables.
- Follow the operative instructions of the machines.
- Prepare the different recipes before mixing.

QUALITY AUDITOR

Bakkavor Foods Ltd
September 2017 - April 2018

Bo'ness, Scotland

My role was to check whether every process was followed in the company, to take samples for the laboratory and to control the quality of the food. Other tasks include:

- Check the good use of processes in the different areas of the factory.
- Verify the quality of the products.
- Take samples for analysis.

RESPIRATORY TECHNICIAN

ARAIR
August 2011 - October 2015

Chateauroux, France

Vitalaire
June 2006 - April 2010

Belfort, France

My role was to install medical equipment in people's homes according to their condition and to monitor their treatment.

My fields of interventions went from oxygen therapy to enteral nutrition and included CPAP, Bipap (invasive and non-invasive, barometric and volumetric) and support for specific populations (tracheotomy, children).

Other tasks:

- Install and operate equipment and medically associated devices to the patient's home.
- Take care of the training of the patient and their understanding of the treatment.
- Take care of the follow-up of the patient's care at home.
- Identify the events associated with the handling of medical devices, healthcare, medicine....
